PEOPLE OF KEANAE
APPRECIATE WORK

Marston Campbell Receives Letter
From Maui Republican
Committee.

Marston Campbell, Superintendent
of Public Works, has been heard to
make the statement that holding a
public office is a pretty thankless job
as a rule. This morning he absolutely
denied ever having made such a
statement, and brought out as proof
of why he should say such things the
following letter of praise and appre-
ciation from the people of Keanae:

To Mr. M. Campbell, Superintendent
of Public Works, Honolulu, Oahu.
Greeting. In the regular business
session of the Board of Executive
Committees of the 27th Precinct, Third
District, Keanae, County of Maui, it
was voted to extend to you the hearty
thanks of the said executive commit-
tee for the benefit of the people resid-
ing at Keanae. We very deeply ap-
preciate all that you have done for us.

Most cordially yours,
S. K. KAHILUA,
Chairman for Republican Committee
of the 27th Precinct, 3d District.

LAYSAN ISLAND

(Continued from Page 1)
some time before strong winds and
high seas and squalls. We sighted
this island last Monday and came in
today.

First Mate Geroll said the passage
back took them 12 days. The winds
were strong and the seas terribly
high. Lightning and thunderstorms
were frequent.

"We brought home the last de-
scendant of the royal family on the
island," said Geroll.

King Chas. Williams and his queen
were the only passengers in the Lu-
ka. King Williams is an old navi-
gator and pilot. His queen, a native
of one of the South Sea Islands, was
on board the schooner, doing her du-
ties in and about the coaling ap-
paratus.

The emigration of King Williams
and his queen from Laysan Island
leaves the island without human be-
ings.

Christian Wagner, a wireless op-
erator who went down as second mate,
stated that Laysan would be a good
site for a wireless station.

"I am certain," said he, "that it
would be a good thing to establish
a wireless station on Laysan Island.
There is plenty of guano there, with
various kinds of birds. The island is
rich in verdure. The diameter of
Laysan is about three miles. It has
a large lake in the center which pre-
sents a pretty scene. When we were
about three days off from the island
bound for Honolulu we made 216
miles in one day. This record is
something marvelous to us. The Lu-
ka behaved well, although she lost
two anchors, the only anchors we
had, during the voyage."

The Luka brought as part of her
cargo rabbits and chickens. The for-
mer were originally imported and
raised there. They have multiplied
and are plentiful on the island. One
of the sailors said that if any living
beings should be cast ashore there
they would find plenty to eat and
drink.

On her trip down the Luka made
the passage in 5 days and 20 hours.
King Schlemmer had no difficulty in
finding Laysan.

ited every saloon in San Francisco in

neers in detention shed.

WATERFRONT NOTES

NEW COALING DEVICE.

A newly-devised apparatus for coal-
ing vessels in the harbor is being
completed by McCabe-Hamilton &
Renny. It is being tested at Canton,
Neill & Co.'s works on Queen street.
The appliance contains hopper buck-
ets on an endless chain. These are
fed from a hopper at the lower shaft
and carry the coal up an incline to
the necessary height, emptying it into
a chute, by which it is run down into
the bunkers of the vessel being
coaled. When the mechanism is set
in motion the coal from the hopper
runs into the hopper buckets and is
carried up to the top of the appliance
when it is delivered by gravity into
the coal bunkers of the vessel to be
coaled.

MELANCTHON SOLD.

The hulk Melancthon has been pur-
chased and the steamer Keana char-

wind up his business before the ar-
rival of the Korea. The Korea has

CASTLE & COOKE, agents for the
Matus line, received a wireless tele-
gram at 9:30 this morning from Bur-
er Brow, announcing that at that
hour the Hiloian was one hundred
miles off the port and would be at
the dock by 2 o'clock in the afternoon.

plosion occurred in the Royal coal

render the mine safer.
